## Exchange Fellows

### FROM KAZAKHSTAN??

We hope that the two years we've had short-term professional teams going to Kazakh-American Free University in Oskemen, Kazakhstan will help us locate and invite a local professional to the U.S. through our Exchange Fellowship program.

### WE NEED VOLUNTEERS TO INVITE & HOST

Will you consider how you can help us build our Exchange Fellowship program? Perhaps you could host a local professional from one of our REI countries.

We need hosts who can help provide room & board and cultural experiences. We also need hosts who can provide professional training for invited national leaders. We are also looking for financial partners who can help provide funding for exchange fellows.

### MAKING A LASTING IMPACT

REI's Exchange Fellowship program consistently provides high-quality professional training and cultural experiences that give our national colleagues in REI countries a meaningful boost. Each exchange fellow who has come through our program has found that the training helped them to advance in their professional careers - a significant step in REI's mission of building people to build nations.
